James T. Foldesi, P.E.
Public Works Director/
Highway Engineer

FROM: Brian Boder, Assistant County Engineer

DATE: June 3, 2013

St. Louis County Public Works has moved to electronic bidding. If you would like to bid, view, or see the plan holders list on this project, please refer to the Bid Express website at www.bidexpress.com. Moving forward, all contractors will be required to submit bids electronically through Bid Express.

You will need to register with Bid Express to view any and all information associated with this project by selecting the "REGISTER FOR FREE" box. If you have any problems creating an account, please contact Bid Express customer support. Their information can be found through the "Contact Us" tab on the Bid Express website.

After you log in, you will be able to view all of the current solicitations for St. Louis County Public Works. To become a plan holder for a project, you must "Select for Bidding". There is not a fee to become a plan holder. Please note, however, you will not receive e-mail notifications (such as when addendums are put out, etc.) for a given project until you pay the fee BidExpress charges to bid on a project. Once it is paid for, you will be able to submit your bid and all accounts associated with your business will receive e-mail notifications of changes to that particular project.

Keep in mind that this program is different than Bidx, which is used by MnDOT. If you are already set up with an account for bidding with MnDOT, you will still need to register with Bid Express, as they are separate entities.

At this time, we will continue to advertise all projects through the Duluth News Tribune, Mesabi Daily News and eGram (select project, expand "Ad for Bid Document"), but you will only be able to view them through Bid Express. Thank you for your patience and cooperation with our transition to electronic bidding.
